Turns flat things into 3D forms!

Nosto, founded in 2017, has been wholeheartedly dedicated to the production of 3D puzzles, including both paper - based and wooden ones. Our unwavering passion for creativity and innovation has propelled us to become a prominent figure in the 3D puzzle industry.

Company Strengths

At Nosto, we take pride in our professional design team. Comprising of highly skilled and creative individuals, our designers are well - versed in the art of 3D puzzle design. They have an in - depth understanding of different customer needs and preferences. Whether clients desire a puzzle that replicates a famous architectural masterpiece, a beloved animal in a lifelike 3D form, or a custom - themed puzzle based on their own unique ideas, our design team has the expertise to bring these visions to life. They work closely with customers, listening attentively to their requirements, and then meticulously crafting design plans that meet and often exceed expectations. This ability to fulfill a wide range of customization requests sets us apart from our competitors.

Factory Advantages

Our factory is the backbone of our operations, ensuring the consistent quality of our products. We have established a comprehensive quality control system that oversees every stage of the production process, from the selection of raw materials to the final assembly of the puzzles. By using only high - quality paper and wood materials, we guarantee the durability and precision of each puzzle piece. As a result, our customers can always expect puzzles that are not only engaging but also long - lasting.

A Big Thank You

We are committed to continuous improvement and development, constantly exploring new designs and technologies to bring more exciting and unique 3D puzzle experiences to our customers. Looking ahead, we aim to further strengthen our relationship with our valued customers, leveraging their feedback to drive innovation and deliver even more remarkable products.

Make Something Wonderful Out of Wood

Wood has long been used to produce a wide range of both practical and decorative objects. These items are laser cut and etched in great detail for a more defined item. Wooden 3D puzzles are a type of puzzle that consists of interlocking wooden pieces that can be assembled to form a three-dimensional object or scene.

We welcome OEM Project

For every OEM project, a dedicated team of experienced staff works hard behind the scenes. Their expertise covers various fields, ensuring each project progresses smoothly. At Nosto, we take a personalized approach. We talk to each client to understand their needs and design style. This helps us create solutions that are both beautiful and practical. Don't miss the chance to meet our innovative R&D team right away! They're always full of new ideas and ready to work with you to make something great.

Foam-Backed 3D Puzzle

3D foam puzzles stand out as engaging and highly creative toys, meticulously crafted from lightweight yet impressively durable foam pieces. The choice of this particular material ensures that the puzzles are not only easy for young hands to handle but also resilient enough to withstand the rigors of repeated use, making them a long - lasting addition to any toy collection.

Design Is in Our DNA!

Our in - house design team, consisting of proficient 3D modelers and skilled illustrators, is well - equipped to fulfill all your production requirements. This dedicated team ensures that every OEM project is executed with precision and creativity, bringing your unique ideas to life.

Think BIG with Paper

Paper 3D PUZZLE is a type of puzzle made from foam materials. It consists of various foam pieces that are precisely cut and designed to fit together to form a three-dimensional structure. These pieces usually have different shapes and sizes, and when assembled correctly, they create a detailed and often intricate 3D model. It can range from simple geometric shapes to complex figures like animals, buildings, or characters. This kind of puzzle is not only a fun activity for people of all ages to exercise their spatial thinking and problem-solving skills but also a decorative item once completed.

We welcome OEM Project

For every OEM project, an experienced team of staff is actively engaged in the behind-the-scenes work. Their professional knowledge spans across diverse fields, guaranteeing the seamless progress of each project. At Nosto, we adopt a customized strategy. We communicate with every client to fully grasp their requirements and design preferences. This enables us to develop solutions that are not only aesthetically pleasing but also highly functional. Seize the opportunity to connect with our creative R&D team without delay! They are brimming with novel concepts and eager to collaborate with you to achieve remarkable results.
